Journal of medical ethics, 1991, **17, 207–213**

Index by subject matter (thematic review) Journal of Medical Ethics, volume 17, 1991

Editor's note

This is the *journal's* new combined index and thematic review which we hope will prove to be more useful to readers than the old system. In the first part, articles and book reviews are classified using the American National Reference Center for Bioethics Literature Library Classification Scheme (the Kennedy system), which is printed on page 212, and in the second part authors, reviewers, articles and book reviews are arranged alphabetically, with their Kennedy classification following.
